

中国儿童能力指数

For each question, please mark the box that represents your answer. It is important to remember that children do not develop and learn at the same rate, for example, some children learn to walk earlier than others and this is normal and OK. We don't expect children to be able to do everything we ask in this questionnaire. The most important thing is that you give honest answers.

child name _____ child date of birth: _____
code: _____ child gender: _____
Mother's highest education: primary or lower/ commenced high school/completed high school / commenced tertiary
How many years has this child enrolled in KG? _____
