

Tuvalu Early Human Capability Index (Determining the capability of children in Early Childhood Education)

To be completed by the **teacher**

For each question, you are humbly requested to write your responses in the boxes provided. It is important to note that each child was brought up differently and have different styles of learning. Some children would walk before their peers; that is a truly observable fact. It is not expected that children will be able to answer all the questions. What is important, however, is that the responses we receive are truly authentic.

It is a requirement that your responses must be truthful so that a whole and factual representation of the child could be accurately presented, and by which an appropriate intervention could be developed in order to assist the child in improving his learning experience..

This particular survey is not an attempt to assess the school and its performance, but rather an exercise to assist in improving the child and his/her development needs. Community results will be provided back to the community after the survey is completed. The child's name will not be used against anything. Sharing this to anyone else is forbidden.

Name of School: _____ School ID _____

Child's Historical Background

A	Name of the Child		
E	Child's Date of Birth		
I	Sex	Male	Female
O	Island and Village settled by the child:		
U	Student education ID:		

Health Development of the Child

1	Child's Height	_____	cm
2	Child's Weight	_____	kg
		Yes	No
3	Does the child get sick often?		

4a	<p>Is the child currently using any of the following types of assistive device(s)</p> <p>(tick yes or no for all options)</p> <p>1) Glasses</p> <p>2) Hearing Aid</p> <p>3) Wheel chair</p> <p>4) Crutches, walking stick or walking frame</p> <p>5) Other mobility Aid, please specify _____</p> <p>6) Screen reading software (computer program reads the text out loud)</p> <p>7) White cane (for low vision or blind children)</p> <p>8) Orthotic devices (to support legs, arms of spine), Artificial limbs (prosthetics)</p> <p>9) Modified furniture (special chair)</p>	<p>1 Yes</p> <p>2 Yes</p> <p>3 Yes</p> <p>4 Yes</p> <p>5 Yes</p> <p>6 Yes</p> <p>7 Yes</p> <p>8 Yes</p> <p>9 Yes</p>	<p>No</p> <p>No</p> <p>No</p> <p>No</p> <p>No</p> <p>No</p> <p>No</p> <p>No</p> <p>No</p>		
4b	Does the child receive any human assistance for walking or moving	Yes	No		
4c	<p>Because of a health problem, does the child have difficulty with Seeing (even if wearing glasses (if the child uses glasses))</p> <p>1) Hearing (Hearing sounds like peoples voices or music (when using hearing aid if the child uses hearing aid))</p> <p>2) Gross motor actions (Walking or climbing stairs (when using mobility aid or receiving assistance where relevant))</p> <p>3) Fine motor actions (Compared with children of the same age, writing/drawing (controlling pencils or picking up small objects) or fastening clothes)</p> <p>4) Speaking (Being understood when speaking (in native language))</p> <p>5) Learning – general (Compared with children of the same age, including task such as literacy and numeracy, remembering, learning to do household tasks – overall difficulties in many areas)</p> <p>7) Behaviour and social activity (Playing, kicking or biting other children or adults)</p> <p>6) Mood (Sad and depressed, and/or worried and anxious)</p>	No	Some	Lots	Can not do at all
